

11 January 1977

MEMORANDUM FOR: Chief, Clearance Division
Acting Chief, Security Support Division
Chief, Security Analysis Group

FROM STATINTL: [REDACTED]
Acting Deputy Director of Security (PSI)

SUBJECT : Space Management Task Force

1. On 11 January 1977 the DD/P&M advised that the Space Management Task Force has focused on the Office of Security, and there is the distinct possibility that the entire Office might be asked to move from the Headquarters Building. The Task Force accepted the importance of the security/polygraph files to the Office of Security in general, and DD/PSI in particular, but the point was made that these records are not utilized throughout the Agency, as with Personnel files.

STATINTL

2. [REDACTED] asked that the DD/PSI assume the action responsibility in taking the first cut at a paper which provides examples and otherwise documents the dynamic importance and utilization of the files at Headquarters. In effect, we have to establish the need for immediate ready access to the files because of our direct interface with customers in the operating components. We must cite good examples where the problem could not have been handled by phone. The [REDACTED] case is a key example, and the [REDACTED] case might be in the same category.

STATINTL

3. We must get our brief succinct summary of cases to the DD/P&M by close of business on Wednesday, 12 January. I would like to have the reports in my hands by 4:30 p.m.
